Brief Description of Topics for Discussion:

I. We need some help to understand the reasons and legal basis for following formal objections and rejections:

- (1) IDS - Objection based on lack of a publication date.
- (2) "SIGNAL GENERATORS" AND "PASSIVE FEEDBACK NETWORKS/FUNCTION" - 112 1st paragraph rejection based on statement that signal generators and passive feedback networks/function "are significant integral tools of the invention worth detailing (i.e. claims 11 and 26)."
- (3) "SUBSTANTIALLY" AND "ADAPTED" - 112 2nd paragraph rejection based on statement that the Examiner is unclear in what context the words "substantially and adapted" are used within the body of the claims (i.e. claims 4,11,30,35 and 43)
- (4) ADDITION OF "OR PASSIVE" BASED ON ORIGINAL DISCLOSURE
- A "no new matter" objection to addition of one word into the specification based on original disclosure.

II. We need some help understanding how the Examiner is intending to apply the prior art to the claims.

- (1) SEAT SENSOR AND IMMOBILIZATION - Discussion of the claimed immobilizing feature and comparison with prior art relied upon by the Examiner.
